Orange Unified School District

2019-2020

Prepared by  
Orange County Department of Education  
Evaluation, Assessment & Data Center

February 2020

**Orange Unified School District (OUSD) Local Control Accountability Plan (LCAP)  
Student Survey Summary**

The following is a summary of the data collected from the survey of OUSD parents. This data summary is arranged to provide survey results by item.

*Instrument:*

Survey items were developed to capture respondents' perceptions of how well the district is achieving its LCAP goals for 2019-2020. This survey is structured so that respondents would retrospectively report on the degree to which they felt each item was met, accomplished, or achieved.

*Methods:*

The survey was administered as an online only survey with an approximate 3-month administration window; September 30, 2019 to December 20, 2019. Following standard Evaluation, Assessment & Data Center (EADC) survey protocol, a website was created showing how many responses were received in near-real time. The web address to this site was emailed to the district the day after the survey window opened to ensure a high response rate. At the end of the survey window, 5,648 survey responses were received (N=5,648).

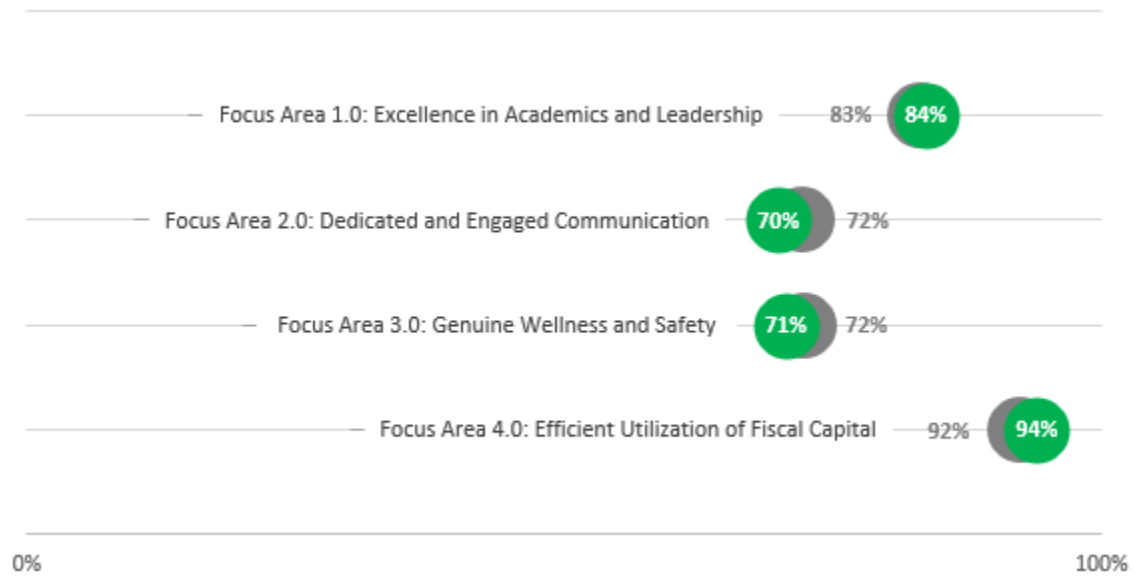

*Analysis:*

The data analysis strategy for quantitative data consists of basic descriptive statistics (frequencies and percentages); percentages were rounded to the nearest whole number. Unanswered items (i.e., blanks) and items answered with "N/A" were excluded from the analysis. Percentages from the 2018-2019 survey (where applicable) are provided for comparison purposes.

All comments received are included in the Appendix by school site, comments that are confidential in nature are listed separately. Comments are transcribed as they were received.
