2021-2022 School Accountability Report Card (Published During the 2022-2023 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>

For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>

For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

2022-23 School Overview

Orange Pre-K is part of the Orange Unified School District and ranges in enrollment from 160-295 students during the school year, ages infants-5 years of age. Orange Pre-K provides services for infant and preschool aged students with mild to moderate and moderate to severe disabilities which, are identified through the Special Education assessment process. Orange Pre-K services students from all areas within the boundaries of the Orange Unified School District. Our program offers a 2 hour and three hour session determined by student identified needs. Our teachers teach a virtual session and an in person class session. Each class consists of approximately 14 to 16 students in person, one Special Education credentialed teacher and approximately two Instructional Assistants. We also have a Preschool Autism Moderate/Severe Program specifically designed for students with autism, with approximately 10 students in each of the 2 classes. The division of our preschool programs in our mild to moderate classes allows the teacher to ensure developmental and age appropriate instruction, using research based strategies and curriculum appropriate for their age. Orange Pre-K also implements a Peer Role Model Program, in our mild to moderate classes, which consists of same aged peers from the community participating in our Special Education programs. The Peer Models serve as social, behavioral and language role models for our students with disabilities.

Orange Pre-K also houses various related services necessary to meet our students' educational needs. These services include: speech and language therapy, occupational therapy, adaptive physical education and physical therapy. The ability to access the student's related services directly on Orange Pre-K's campus allows for continuity and collaboration in each child's program, as well as decreases transportation time and cost.

Orange Pre-K also houses Orange Unified School District's Preschool screening and assessment teams. The teams' role includes the screening of students within our district boundary area and/or assessment in areas of suspected disability. IEP team meetings are held on Orange Pre-K's campus following the initial assessment process. In addition, to initial IEP team meetings, annual meetings are held for those students who attend Orange Pre-K.

For many of our students and their families, their experience at Orange Pre-K is their first in public education. Our staff works collaboratively to ensure our students' educational needs are met while creating a nurturing environment that promotes family involvement and support as they learn to navigate their student's special education program and needs.

Orange Pre-K Mission Statement

2022-23 School Overview

The mission of Orange Pre-K is a commitment to providing learning experiences for each child in preparation for early success and school readiness. Orange Pre-K will offer a warm and welcoming introduction to the Orange Unified School District and the public school system. We provide a strong, educated and well-trained team to implement a comprehensive program of research-based instructional methodologies for teaching pre-academic and academic skills as well as social/emotional, adaptive daily living, and vocational skills to continue the development of each child. These strategies collectively prepare our students for their future educational experiences and support achievement of their personal goals set before them.

Guided by high expectations coupled with the knowledge that all children learn at different levels and speeds, our team will provide students with a broad range of educational opportunities that will help each child learn to the best of his or her abilities. We will strive to develop literacy skills as well as provide experiences that enrich each child's social/emotional, physical, vocational, adaptive daily living, communication, technology and creative abilities in order to become a successful 21st century learner!

Children will have a safe, wholesome, nurturing educational experience. Children will be in a safe learning environment in which children can solve problems and express their feelings through words, art and other creative areas. Children will be exposed to positive character lessons and experiences, used to help shape them into successful members of a social world.

A. Conditions of Learning State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

2021-22 data was not included as part of the initial release of data on 1/13/23. The CDE has indicated that the data will be available after the 2/1/23 SARC deadline. The data will be populated when it is published by the CDE.

Note: The data in this table is based on Full Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

2022-23 Quality, Currency, Availability of Textbooks and Other Instructional Materials

All K-8 textbooks are selected from the state matrix provided through the California Board of Education. Teachers peruse the materials and select by majority vote. Selected texts are then submitted to the Board of Education for final approval. Textbooks are procured in sufficient numbers for each student to receive a textbook. High School adoptions are content area based, with teachers selecting appropriate materials for the course objectives as outlined in the course description approved by the Board of Education. Selected texts are submitted to the Board for approved use in classrooms with purchase ratio of one per student. The Public Hearing and Adoption of Resolution No. 12-22-23 of the Board of Education of Orange Unified School District on the sufficiency of textbooks, instructional materials and science lab equipment (9-12) was approved on September 8, 2022.

School Facility Conditions and Planned Improvements

As updates and repairs are needed, work orders and support is provided by the appropriate district divisions. Communication is made regularly with the district regarding needs to promote student safety, cleanliness and adequacy of resources to support student success. District has made a recommendation to replace our current structure due to student safety hazards.

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).
4. **College and Career Ready**
The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

SARC Reporting in the 2020-2021 School Year Only

Where the most viable option, LEAs were required to administer the statewide summative assessment in ELA and mathematics. Where a statewide summative assessment was not the most viable option for the LEA (or for one or more grade-level[s] within the LEA) due to the pandemic, LEAs were allowed to report results from a different assessment that met the criteria established by the State Board of Education (SBE) on March 16, 2021. The assessments were required to be:

- Aligned with CA CCSS for ELA and mathematics;
- Available to students in grades 3 through 8, and grade 11; and
- Uniformly administered across a grade, grade span, school, or district to all eligible students.

Options

Note that the CAAs could only be administered in-person following health and safety requirements. If it was not viable for the LEA to administer the CAAs in person with health and safety guidelines in place, the LEA was directed to not administer the tests. There were no other assessment options available for the CAAs. Schools administered the Smarter Balanced Summative Assessments for ELA and mathematics, other assessments that meet the SBE criteria, or a combination of both, and they could only choose one of the following:

- Smarter Balanced ELA and mathematics summative assessments;
- Other assessments meeting the SBE criteria; or
- Combination of Smarter Balanced ELA and mathematics summative assessments and other assessments.

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

The 2020-21 data cells have N/A values because these data are not comparable to other year data due to the COVID-19 pandemic during the 2020-21 school year. Where the CAASPP assessments in ELA and/or mathematics is not the most viable option, the LEAs were allowed to administer local assessments. Therefore, the 2020-21 data between school years for the school, district, state are not an accurate comparison. As such, it is inappropriate to compare results of the 2020-21 school year to other school years.

Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2020-21	School 2021-22	District 2020-21	District 2021-22	State 2020-21	State 2021-22

Mathematics (grades 3-8 and 11)	N/A		N/A		N/A	

2021-22 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

This table displays CAASPP test results in Math by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2022-23 Opportunities for Parental Involvement

The Orange Pre-K Staff works closely with families to provide opportunities that enrich our students' educational experiences. Opportunities for parent involvement include school wide activities such as Pre-K Round-up, Fall Fantasy Parade focusing on literature, Holiday Extravaganza, Jog-a-thon, Open House, Muffins with Moms, Donuts with Dad, and Family Field Day and Picnic. Parents also receive monthly communication from their teacher that communicate the monthly theme, Enduring Understanding and Essential questions for the month. Additionally, phone calls and emails from the program coordinator provide school and District wide information. Teachers also use technology and/or home/school communication notebooks. Parents are a vital member of the IEP team and participate throughout the year in their child's instructional program.

State Priority: School Climate

The SARC provides the following information relevant to the State priority: School Climate (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety

Suspensions and Expulsions

This table displays suspensions and expulsions data collected between July through February, partial school year due to the COVID-19 pandemic. The 2019-20 suspensions and expulsions rate data are not comparable to other year data because the 2019-20 school year is a partial school year due to the COVID-19 crisis. As such, it would be inappropriate to make any comparisons in rates of suspensions and expulsions in the 2019-20 school year compared to other school years.

2022-23 School Safety Plan

Each of the district's schools develops and adopts, in accordance with Education Code § 32280 – 32289, a Comprehensive Safe School Plan particular to their site. Each school site is required annually, by March 1st, to have reviewed, and if necessary, updated their Safe School Plan. Each school forwards its School Safety Plan to the district through the office of Student and Community Services. The office of Student and Community Services provides plan development assistance to the schools and maintains a file of individual school plans available for inspection by the public.

Orange Pre-K has a comprehensive school safety plan that is reviewed, revised and approved yearly by the school site council. Staff is then trained on changes in order to ensure effective plan implementation. Our School Safety Plan consists of various team leads which has direct communication to a command center. We have regular drills to practice implementation including fire, earthquake and lockdown. Our main concern is the safety of our children and staff.
