#### Charter Schools

A district with ten or fewer schools may petition the Superintendent of Public Instruction and the State Board of Education to become a charter district pursuant to E.C. 47606.

The Board of Education accepts responsibility for protecting the interests of the public when granting or denying charter petitions. The Board desires to support innovations which improve student learning and views charter schools as an opportunity to implement school-level reform. The District administration shall work cooperatively with parents/guardians, students, teachers and principals in their efforts to design new schools and alternatives to the existing state laws and regulations that govern public schools.

By law, petitioners are responsible for developing the charter that will govern the charter school. Unlike other alternative education programs which are under the direct control of the District, charter schools shall be governed at the school in accordance with charter provisions approved by the Board. In granting charter petitions, the Board shall give preference to schools best able to provide comprehensive learning experiences for academically low-achieving students. (Education Code 47605)

The Board shall give appropriate consideration to charter school petitions in light of the effects on the District's children and the proposed school's ability to function effectively and meet its goals. In accordance with law, the proposed charter must include descriptions of the vision, mission and goals of the charter school, the governance structure which will be used, the educational outcomes to be attained by students and the method by which progress in meeting these outcomes will be measured.

In order to be formally received by the Board, a petition for a charter school shall be in writing and is to include all components and signatures required by law and shall be submitted the Superintendent's office at least ten working days before a regularly scheduled Board meeting date for inclusion as an agendized item on the Board agenda. Any petition submitted less than ten work days before a regularly scheduled Board meeting date shall be scheduled for formal receipt by the Governing Board at the next regularly scheduled Board meeting. (Education Code 47605)

Within 30 days of formally receiving a petition to establish a charter school and accepting the petition as an agendized item at a Board meeting, the Board shall hold a public hearing to determine the level of support for the petition by teachers employed by the District, other employees of the District, and parents. (Education Code 47605)

Within 60 days of formally receiving a petition, or within 90 days with mutual consent of the petitioners and the Board of Education, the Board shall either approve or deny the request to establish the charter school. (Education Code 47605)

In its evaluation of the proposed charter, the Board shall include in its review the criteria set forth in the Education Code and the California Code of Regulations, Title 5, section 11967.5.1.

The Board shall ensure that any approved charter contains adequate processes and measures for holding the school accountable for fulfilling the terms of its charter. These shall include, but are not limited to, fiscal accountability systems, multiple measures for evaluating the educational program, including student outcomes aligned with state priorities as described in Education Code 52060, and regular reports to the Board.

The Board shall hold charter schools under its jurisdiction accountable for fulfilling the terms of their charters and may revoke a charter if deemed necessary.

The Board may approve one or more memoranda of understanding to clarify the financial and operational agreements between the District and a charter school authorized by the Board of Education.

It shall be the responsibility of the petitioners to provide written notice of the Board's approval and a copy of the charter to the County Superintendent of Schools, the CDE, and the State Board of Education (SBE). (Education Code 47605)

#### **District-Sponsored Social Media**

The Governing Board recognizes the value of technology such as social media platforms in promoting community involvement and collaboration. The purpose of any official district social media platform shall be to further the district's vision and mission, support student learning and staff professional development, and enhance communication with students, parents/guardians, staff, and community members.

The Superintendent or designee shall develop content guidelines and protocols for official district social media platforms to ensure the appropriate and responsible use of these resources and compliance with law, Board policy, and regulation.

Official district social media platforms shall be used only for their stated purposes and in a manner consistent with this policy and administrative regulation. By creating these official sites and allowing for public comment, the Board does not intend to create a limited public forum or otherwise guarantee an individual's right to free speech.

Each site shall contain a statement that specifies the site's purposes along with a statement that users are expected to use the site only for those purposes. Each site shall also contain a statement that users are personally responsible for the content of their posts.

Adopted: 2/18 Orange, California

PUBLIC HEARING: RESOLUTION 22-17-18 APPROVING AN INCREASE IN STATUTORY SCHOOL FEES IMPOSED ON NEW RESIDENTIAL AND COMMERCIAL CONSTRUCTION PURSUANT TO EDUCATION CODE SECTION 17620 AND GOVERNMENT CODE SECTION 65995

**DESCRIPTION:** 

### Background

Government Code Section 65995 establishes a maximum statutory fee that may be charged against development projects within the school district and authorizes that amount to be biennially adjusted for inflation as set forth in the Statewide cost index for Class B construction as determined by the State Allocation Board (SAB) at its January meeting in even numbered years.

On January 24, 2018, the SAB acted to increase the Level I Developer Fees for both residential and commercial/industrial construction pursuant to Education Code Section 17620 and Government Code Section 65995. As amended on February 24, 2016, for unified school districts, the Level I fee for residential construction was increased from \$3.48 to \$3.79 per square foot of The Level construction. residential new commercial/industrial construction was increased from \$0.56 to \$0.61 per square foot of new commercial/industrial construction. These fees are split between the high school district and the elementary feeder districts in accordance with the approved Developer Fee Allocation Agreements.

### **Current Considerations**

In order for a school district to assess the new Level I fees, it must prepare and adopt a school facilities fee justification study, commonly known as a Level I Developer Fee Justification Study or School Fee Justification Study. Both residential development and commercial/industrial development justification studies were prepared by Cooperative Strategies. Copies of each study are attached under separate cover. The required Notice of Public Hearing was published in the *Orange County Register* on February 2, and February 9, 2018. If approved by the Board of Education, the new Level I fees will go into effect sixty days after adoption.

### Fiscal Implications

There is no direct fiscal impact to the District's general fund as a result of approving this item. Approval of this item allows the District to collect the maximum legal level of fees assessed against residential and commercial development. Fees are deposited in Fund 25 – Capital Facilities Fund (Developer Fees).

FISCAL IMPACT: None

RECOMMENDATION: It is recommended that the Board of Education hold a public

hearing and adopt Resolution 22-17-18 approving an increase in statutory school fees imposed on new residential and commercial/industrial construction pursuant to Education Code Section 17620 and Government Code Section 65995, and that the Superintendent or designee be authorized to execute the

Resolution.

NOW, THEREFORE, THE BOARD OF EDUCATION OF THE ORANGE UNIFIED SCHOOL DISTRICT DOES HEREBY RESOLVE, DETERMINE, AND ORDER AS FOLLOWS:

- Section 1. That the Board accepts and adopts the Studies.
- <u>Section 2.</u> That the Board finds that the purpose of the Statutory School Fees imposed upon new residential development is to fund the additional School Facilities required to serve the students generated by the new residential development upon which the Statutory School Fees are imposed.
- Section 3. That the Board finds that the Statutory School Fees imposed on new residential development will be used only to finance those School Facilities described in the Study and related documents and that these School Facilities are required to serve the students generated by the new residential development within the School District; and that the use of the Statutory School Fees will include construction or acquisition of additional School Facilities, remodeling existing School Facilities to add additional classrooms, and technology, and acquiring and installing additional portable classrooms and related School Facilities, with the specific location of new schools, remodeling of existing School Facilities, and additional portables to be determined based on the residence of the students being generated by such new residential development, as well as any required central administrative and support facilities, within the School District.
- <u>Section 4.</u> That the Board finds that there is a roughly proportional, reasonable relationship between the use of the Statutory School Fees and the new residential development within the School District because the Statutory School Fees imposed on new residential development by this Resolution, will be used to fund School Facilities which will be used to serve the students generated by such new residential development.
- Section 5. That the Board finds that there is a roughly proportional, reasonable relationship between the new residential development upon which the Statutory School Fees are imposed, and the need for additional School Facilities in the School District because new students will be generated from new residential development within the School District and there is not sufficient capacity in the existing School Facilities to accommodate all additional students.
- <u>Section 6.</u> That the Board finds that the amount of the Statutory School Fees levied on new residential development as set forth in this Resolution is roughly proportional and reasonably related to, and does not exceed the cost of, providing

the School Facilities required to serve the students generated by such new residential development within the School District.

- Section 7. That the Board finds that the purpose of the Statutory School Fees imposed on new commercial/industrial development is to fund the additional School Facilities required to serve the students generated by the new commercial/industrial development upon which the Statutory School Fees are imposed.
- Section 8. That the Board finds that the Statutory School Fees imposed on new commercial/ industrial development (by category) will be used only to finance those School Facilities described in the Studies and related documents and that these School Facilities are required to serve the students generated by such new commercial/industrial development; and that the use of the Statutory School Fees will include construction or acquisition of additional School Facilities, remodeling existing School Facilities to add additional classrooms and technology, and acquiring and installing additional portable classrooms and related facilities, with the specific location of new schools, remodeling of existing School Facilities, and additional portables to be determined based on the residence of the students being generated by such new commercial/industrial development, as well as any required central administrative and support facilities within the School District.
- Section 9. That the Board finds that there is a roughly proportional, reasonable relationship between the use of the Statutory School Fees and new commercial/industrial development by category within the School District because the Statutory School Fees imposed on commercial/industrial development by this Resolution, will be used to fund School Facilities which will be used to serve the students generated by such new commercial/industrial development.
- Section 10. That the Board finds that there is a roughly proportional, reasonable relationship between the new commercial/industrial development by category, upon which the Statutory School Fees are imposed, and the need for additional School Facilities in the School District because new students will be generated from new commercial/industrial development within the School District and the School District does not have sufficient student capacity in the existing School Facilities to accommodate these students.
- Section 11. That the Board finds that the amount of the Statutory School Fees levied on new commercial/industrial development by category as set forth in this Resolution is roughly proportional and reasonably related to and does not exceed the cost of providing the School Facilities required to serve the students generated by such new commercial/industrial development within the School District.
- <u>Section 12.</u> That the Board finds that a separate account has been established for the deposit of Statutory School Fees imposed on residential and commercial/industrial development and that said account has at all times since been separately maintained, except for temporary investments, from other funds of the School District.
- Section 13. That the Board finds that the funds of the account, described in Section 12, consisting of the proceeds of Statutory School Fees have been imposed for the purposes of constructing and reconstructing those School Facilities necessitated by new residential and commercial/industrial development, and thus, these funds may be expended for those purposes. The Statutory School Fees may also be expended by the School District for the costs of performing any study or otherwise making the findings and determinations required under subdivisions (a), (b), and (d) of Section 66001 of the Government Code. In addition, the School

District may also retain, as appropriate, an amount not to exceed in any fiscal year, three percent (3%) of the fees collected in that fiscal year pursuant to Education Code Section 17620 for reimbursement of the administrative costs incurred by the School District in collecting the Statutory School Fees.

<u>Section 14.</u> That the Board hereby increases the Statutory School Fees as a condition of approval of new residential development projects and imposes the Statutory School Fees on such development projects in the following amounts:

- \$3.79 per square foot of assessable space for new single family detached residential development and \$3.79 for new multifamily attached residential development, including new residential projects, manufactured homes and mobile homes as authorized under Education Code Section 17625, and including residential construction other than new construction where such construction results in an increase of assessable space, as defined in Government Code Section 65995, in excess of 500 square feet. However, these amounts shall not be imposed on any development project used exclusively for housing senior citizens, as described in Civil Code Section 51.3, or as described in Subdivision J of Section 1569.2 of the Health and Safety Code or paragraph 9 of subdivision (d) of Section 15432 of the Government Code or any mobile home or manufactured home that is located within a mobile home park, subdivision, cooperative or condominium for mobile homes limited to older persons as defined by the Federal Fair Housing Amendments of 1988.
- B. \$0.61 per square foot of assessable space for new residential development used exclusively for the housing of senior citizens, as described in Section 51.3 of the Civil Code or as described in subdivision J of Section 1569 of the Health and Safety Code or paragraph 9 of subdivision (d) of Section 15432 of the Government Code or any mobile home or manufactured home that is located within a mobile home park, subdivision, cooperative or condominium for mobile homes limited to older persons as defined by the Federal Fair Housing Amendments of 1988.

<u>Section 15.</u> That this Board hereby increases the Statutory School Fees as a condition of approval of new commercial/industrial development projects and levies the Statutory School Fees on such development projects in the following amounts per square foot of chargeable covered and enclosed space for the following categories of commercial/industrial development:

| Retail and Services Office Research and Development Industrial/Warehouse/Manufacturing Hospitals Hotel/Motel | \$0.61<br>\$0.61<br>\$0.61<br>\$0.61<br>\$0.61<br>\$0.049 |
|--|---|
| Self-Storage   |   |

Section 16. That the proceeds of the Statutory School Fees established pursuant to this Resolution shall continue to be deposited into that account identified in Section 12 of this Resolution, the proceeds of which shall be used exclusively for the purpose for which the Statutory School Fees are to be collected, including accomplishing any study, findings or determinations required by subdivisions (a), (b) and (d) of Section 66001 of the Government Code or retaining an amount not to

exceed in any fiscal year, three percent (3%) of the fees collected in that fiscal year pursuant to Education Code Section 17620 for reimbursement of the administrative costs incurred by the School District in collecting the Statutory School Fees or in financing the described Study or in defending the imposition of Statutory School Fees.

Section 17. That the Superintendent, or his designee, is directed to cause a copy of this Resolution to be delivered to the building official of the Cities and County within the School District's boundaries and the Office of Statewide Health Planning and Development ("OSHPD") along with a copy of all the supporting documentation referenced herein and a map of the School District clearly indicating the boundaries thereof, advising the Cities, County, and OSHPD that new residential and commercial/industrial development is subject to the Statutory School Fees readopted pursuant to this Resolution and requesting that no building permit or approval for occupancy be issued by any of these entities for any new residential development project, mobile home or manufactured home subject to the Statutory School Fees absent a certification from this School District of compliance of such project with the requirements of the Statutory School Fees, nor that any building permit be issued for any non-residential development absent a certification from this School District of compliance with the requirements of the applicable Statutory School Fees.

Section 18. That the Board hereby establishes a process that permits the party against whom the commercial/industrial Statutory School Fees are imposed, the opportunity for a hearing to appeal that imposition of Statutory School Fees for commercial/industrial development as required by Education Code Section 17621(e)(2). The appeal process is as follows:

- A. Within ten (10) calendar days of being notified, in writing, (by personal delivery or deposit in the U.S. Mail) of the commercial/industrial Statutory School Fees to be imposed or paying the commercial/industrial Statutory School Fees, pursuant to Education Code Section 17620, a party shall file a written request for a hearing regarding the imposition of commercial/industrial Statutory School Fees. The party shall state in the written request the grounds for opposing the imposition of commercial/industrial Statutory School Fees and said written request shall be served by personal delivery or certified or registered mail to the Superintendent of the School District.
- B. The possible grounds for that appeal include, but are not limited to, the inaccuracy of including the project within the category pursuant to which the commercial/industrial Statutory School Fees are to be imposed, or that the employee generation or pupil generation factors utilized under the applicable category are inaccurate as applied to the project.
- C. Within ten (10) calendar days of receipt of the written request for a hearing regarding the imposition of commercial/industrial Statutory School Fees, the Superintendent of the School District, or his designee, shall give notice in writing of the date, place and time of the hearing to the party appealing the imposition of commercial/industrial Statutory School Fees. The Superintendent, or his designee, shall schedule and conduct said hearing within thirty (30) calendar days of receipt of the written request. The Superintendent, or his designee, shall render a written decision within ten (10) days following the hearing on the party's appeal and

- serve it by certified or registered mail to the last known address of the party.
- D. The party against whom the commercial/industrial Statutory School Fees are imposed may appeal the Superintendent's, or his designee's, decision to the Board of the School District.
- E. The party appealing the Superintendent's, or his designee's decision, shall state in the written appeal the grounds for opposing the imposition of the commercial/industrial Statutory School Fees and said written appeal shall be served by personal delivery or certified or registered mail to the Superintendent of the School District.
- F. The possible grounds for that appeal to the Board of the School District include, but are not limited to, the inaccuracy of including the project within the category pursuant to which the commercial/industrial Statutory School Fees are to be imposed, or that the employee generation or pupil generation factors utilized under the applicable category are inaccurate as applied to the project.
- G. Within ten (10) calendar days of receipt of the written request for a hearing regarding the imposition of commercial/industrial Statutory School Fees, the Superintendent of the School District, or his designee, shall give notice in writing of the date, place and time of the hearing to the party appealing the imposition of commercial/industrial Statutory School Fees. The Board of the School District shall schedule and conduct said hearing at the next regular meeting of the Board, provided that the party is given notice at least five (5) working days prior to the regular meeting of the Board. The Board shall render a written decision within ten (10) days following the hearing on the party's appeal and serve the decision by certified or registered mail to the last known address of the party.
- H. The party appealing the imposition of the commercial/industrial Statutory School Fees shall bear the burden of establishing that the commercial/industrial Statutory School Fees are improper.

<u>Section 19.</u> That the Superintendent is authorized to cause a certificate of compliance to be issued for each development project, mobile home and manufactured home for which there is compliance with the requirement for payment of the Statutory School Fees in the amount specified by this Resolution. In the event a certificate of compliance is issued for the payment of Statutory School Fees for a development project, mobile home or manufactured home and it is later determined that the statement or other representation made by an authorized party concerning the development project as to square footage is untrue, then such certificate shall automatically terminate, and the appropriate City shall be so notified.

<u>Section 20.</u> That no statement or provision set forth in this Resolution, or referred to therein shall be construed to repeal any preexisting fee previously imposed by the School District on any residential or nonresidential development.

<u>Section 21.</u> That the School District's Statutory School Fees will become effective sixty (60) days from the date of this Resolution unless a separate resolution increasing the fees immediately on an urgency basis is adopted by the Board.

**COMMUNICATIONS / PUBLIC INFORMATION SERVICES** 

**DESCRIPTION:** 

The District has a need to hire a qualified firm for communications/ public information services. Staff conducted a Request for Information (RFI) in September, inviting firms to submit proposals. Results were presented during the November 9, 2017 Board meeting. The RFI was advertised in the OC Register and staff solicited ten public relations firm. The Board took action and instructed staff to proceed with a Request for Proposal (RFP) with the intent to award services to qualified firms. Staff solicited the RFP in December to the two firms that submitted a proposal during the RFI phase. For the RFP, firms were required to present a mock marketing plan presentation at the January 8, 2018 Board meeting and submit a service level cost form, which describes the products and deliverables of each firm's services.

A District Communications Committee was formed to do a comprehensive analysis reviewing the firm's performance during the presentation (including Board feedback of the marketing plan presentation), the service level costs (products and deliverables), and the overall qualification and experience of each firm. A primary focus was to ensure that with the amount of funds available, the District would get the most value and deliverable products, given a limited budget.

The initial recommendation was to award to VMA Communications the contract at maximal retainer rate of \$9,000 per month, plus direct costs. The Board asked that staff negotiate with Communications Lab to secure the same, or better, deliverable products at a comparable or better price.

Staff has worked with Communication Labs to produce a more comprehensive list of deliverable products at comparable market rates and they dropped the monthly retainer to \$8,500. It is not anticipated that the District would be able to take advantage of "tiered pricing retainer" during the recommended ten and one-half month contract, due to the number of deliverable products required over this period. Upon renewal, the District may want to negotiate the annual retainer based upon the services needed and the ability to reduce services as products are developed, which can be maintained by District staff, or as discretionary funding becomes scarce in the future.

FISCAL IMPACT:

District staff have negotiated with vendor identified marketing services ranging for \$89,250 in retainer fees, plus estimated reimbursable direct expenses, estimated at \$124,221. The total amount of this contract is \$213,471.

RECOMMENDATION:

It is recommended that the Board of Education hire Communication Labs for communications/public information services for a ten and one-half month period based on supporting local venders, their experience, deliverable products, and price of retainer.

### COLLEGE AND CAREER ACCESS PATHWAY PARTNERSHIP AGREEMENT

**DESCRIPTION:** 

Assembly Bill 288 establishes the College and Career Access Pathways (CCAP) Act to authorize California Community College Districts to enter into formal partnership agreements with local school districts to expand access to concurrent enrollment opportunities for high school students. Concurrent enrollment is defined as credit hours earned when a high school student is taking a college course for both high school and college credit, during the high school day, on the high school campus. The goals of Assembly Bill 288 encompass the following:

- Expand access to concurrent enrollment programs for students through the authorization of college courses being offered on a high school campus exclusively to high school students
- 2. Increase exposure to the rigor of college coursework and environments for underserved students.
- Accelerate learning for students by developing a framework that enables students who demonstrate competency to up to 15 units of community college coursework instead of the 11 units.
- 4. Build pathways that fill projected labor market needs and are relevant to the targeted student population.
- 5. Promote accountability for student learning by granting school districts more authority to monitor a student's progress and obtain academic records from the collaborating community college.
- 6. Gather data that is more consistent and reliable from the collaborating agencies to allow for better analyses of concurrent enrollment programs.

OUSD, in collaboration with Rancho Santiago Community College, will be entering into a CCAP Partnership Agreement to establish an early college academy at Orange High School. The program will start in August 2018 with an initial cohort of 35 participants. Students will be expected to enroll in a minimum of four units each semester of an aligned, sequenced series of courses to facilitate associate degree completion, four-year transfer, or completion of a credential or certificate in career technical education at graduation.

This item will be brought back at the March 8, 2018 Board meeting as a public hearing for adoption of the resolution.

TOPIC: PURCHASE ORDERS LIST

DESCRIPTION: Purchase orders and change orders processed are in

accordance with the rules and regulations of the Board of Education and applicable legal requirements of the State of

California.

District procedures and computer system controls require that an approved purchase order, pay voucher, current liability, or credit memo exist on the District's computer system prior to the issuance of warrants. There may be multiple warrants drawn against a given purchase order, up to the maximum amount for that purchase order. The system restricts the processing of payment amounts in excess of the issued purchase order.

Note that the purchase order system allows for a one-line description of the services or item procurement. The issued purchase order forms a contract between the District and the

vendor.

FISCAL IMPACT: \$2,596,990.49

RECOMMENDATION: It is recommended that the Board of Education approve the

Purchase Order List dated December 4, 2017 through January

21, 2018, in the amount of \$2,596,990.49.

REQUEST FOR ALLOWANCE OF ATTENDANCE DUE TO EMERGENCY CONDITIONS

**DESCRIPTION:** 

The California Department of Education (CDE) has provided Form J-13A, "Request for Allowance of Attendance Due to Emergency Conditions", to enable the District to file an affidavit which will prevent the loss of attendance apportionment revenue as a consequence of the Canyon Fire 2 wildfire. The Governor issued an emergency proclamation for Orange County on October 9, 2017. Form J-13A may be filed per Education Code (EC) Section 41422, when schools are closed due to extraordinary conditions and per EC Section 46392, when one or more schools were kept open, but experienced a material decrease in attendance. Under a State of Emergency, the materiality threshold is waived.

On October 10–11, 2017, the Canyon Fire 2 resulted in the closure of Anaheim Hills, Canyon Rim, Chapman Hills, Linda Vista, Panorama and Running Springs Elementary Schools for both days and El Modena High School on October 10, 2017. In addition, the following schools experienced a decrease on one or both days in Average Daily Attendance (ADA) as compared to the state method of determining the "normal" October ADA for the school month beginning on October 16, 2017 and ending on November 10, 2017: California, Cambridge, Crescent, Esplanade, Fairhaven, Fletcher, Handy, Imperial, Jordan, La Veta, Lampson, Nohl Canyon, Olive, Palmyra, Prospect, Serrano, Sycamore, Taft, Villa Park and West Orange Elementary Schools; McPherson Magnet, Cerro Villa, Portola and Yorba Middle Schools; Canyon, Orange and Villa Park High Schools, Richland Continuation and Canyon Hills SDC.

School Districts are to be held harmless from revenue loss that might otherwise result from the loss of ADA or instructional time in emergencies. This form, if approved by CDE, will enable the District to a) for the school closures use a divisor of 178 and 179 days for the Elementary Schools and El Modena High School, respectively and b) use the resultant "normal" ADA figure as the material decrease credit; thereby preserving the daily attendance and the Districtwide longer-day/longer-year incentive funding.

FISCAL IMPACT:

Retention of budgeted apportionment revenue.

RECOMMENDATION:

It is recommended that the Board of Education approve and authorize staff to file Form J-13A, "Request for Allowance of Attendance Due to\* Emergency Conditions," as presented.

### TEACHER ASSIGNMENT/CONSENT REPORT

**DESCRIPTION:** 

Individual school districts are responsible to provide their respective county superintendent of schools with evidence of legal and appropriate assignments for all certificated employees. Legal and appropriate assignments for certificated employees are those based upon the authorization(s) contained on the specific certificate(s) held by the certificated employee, as well as additional assignments which are authorized "assignment options" by the Education Code.

Most of the assignment options provided by the Education Code allow a teacher to serve in an additional assignment, provided that the teacher has received a specified level of training relative to the subject area to be taught, that the teacher consents to the assignment, and that the local governing board takes action on the assignment. These assignment options are typically employed in middle schools and high schools where the teacher is assigned to instruct groups of students in a specific subject matter area or areas.

The teachers/assignments listed on the attached Teacher Assignment/Consent Report reflect legal and appropriate assignments based upon authorized assignment options in the Education Code where the teacher has met all requirements and has consented to the assignment.

FISCAL IMPACT:

This item has no fiscal impact.

RECOMMENDATION:

It is recommended that the Board of Education approve the Teacher Assignment/Consent Report as presented.
