Maintenance and Replacement of Transportation Vehicles

The Board of Education recognizes its responsibility to maintain safe and efficient vehicular transportation.

A District-wide repair and/or replacement program shall be established and administered in compliance with the District's safety program.

Pursuant to the provisions of this policy and in compliance with acceptable state and local regulations, all vehicles shall undergo a periodic inspection and shall be repaired or replaced as necessary.

Subject to District financial constraints and Board approved replacement program, the repair, purchase or modification of transportation vehicles shall be made promptly.

Vandalism (Vehicles)

The Board directs the Superintendent or designee to investigate all acts of vandalism against the vehicles of the District to prosecute to the extent permitted by the law.
