Students

Dropout Prevention

The Governing Board recognizes that regular school attendance is critical to student learning and achievement. The Board desires to provide a learning environment that engages students, helps them become self-motivated, encourages regular attendance, and enables them to meet district standards and to graduate.

The Superintendent or designee shall develop strategies to identify and serve students at all grade levels who are at risk of dropping out of school. Students may be identified on the basis of indicators such as frequent absenteeism, truancy, or tardiness; below-grade-level achievement; or personal, social, health, or economic concerns that may make a student more likely to drop out of school.
