Collaborating with California Teachers

During the design process, Apex Learning worked with California Health teachers in order to:

- Accurately interpret the legislation.
- Ensure that the content met the legislative mandate.
- Identify an approach that schools would find appropriate.

Foundational Support

The California Health teachers that were consulted gave the developmental team foundational support throughout production. The teachers:

- Recommended content additions
- Gave guidance on proposed outline changes
- Approved media selections
- Reviewed manuscript
