GUIDELINES FOR BOOSTER CLUBS

The Orange Unified School District appreciates parental interest and participation in clubs organized to support extracurricular programs such as athletics and performing arts groups. The purpose of this manual is to provide guidelines for the appropriate and efficient operation of those clubs. Boosters are separate organizations from a school district to contribute financial and moral support. Booster clubs are organized to enhance and heighten the student's experience. Samples of booster activity would include but are not limited to:

- provide financial support
- host celebratory events (senior night, banquet, etc)
- purchase items, equipment for donation to the district
- provide for additional coaching (educational or athletic)
- model and promote good sportsmanship

Regulations Governing Booster Clubs

California Education Code section 51521 requires that all organizations that conduct fundraising to benefit clubs, schools, students or the district at the K-12 level have prior approval from the school district's governing board or the board-assigned designee. The code states the following:

No person shall solicit any other person to contribute to any fund or to purchase any item of personal property, upon the representation that the money received is to be used wholly or in part for the benefit of any public school or the student body of any public school, unless such person obtains the prior written approval of either the governing board of the school district in which such solicitation is to be made or the governing board of the school district having jurisdiction over the school or student body represented to be benefited by such solicitation, or the designee of either of such boards.

To meet this statutory requirement, the Orange Unified School District has adopted Board Policy 1230 and accompanying administrative regulations to establish specific conditions and controls for the relationship between such organizations and the District.

All booster clubs are required to:

1. Complete and file an application with the School Principal to form or renew a booster club. Applications will be submitted to the Board of Education for approval (per Board Policy 1230). Booster clubs must be reauthorized by the Board of Education every five years and may be revoked by the principal.
2. Each year booster clubs will submit a copy of the application, which shall include the date of the original board authorization, and an updated plan of activities.

3. Submit a copy of the organization's adopted constitution and bylaws with the application.
4. Ensure that renewal applications include the following:
 - a. An annual financial statement for the year just ended; the statement is to include all expenditures
 - b. A budget for the upcoming year that includes all related activities.

Booster Clubs as Nonprofit Organization with Their Own Tax Identification Number

Booster clubs are not legal components of the school district and each club must have its own tax identification number (TIN). There are several ways to approach being tax exempt, having a TIN, or choosing whether or not to accept donations. The recommended approach is for all booster clubs to apply for nonprofit tax exempt status through the Internal Revenue Service (IRS) and state of California. Preparing constitutions, by-laws, articles of incorporation, budgets and projections are already part of the process of obtaining school entity approval. Taking the next step and completing the federal and state forms is not much more difficult.

IRS Form SS-4, Application for Employer Identification Number, may be submitted over the telephone after it is filled out. For your convenience, a blank SS-4 Form is attached.

Regardless of whether it intends to file for nonprofit status, a booster club that will receive \$5,000 or more in annual revenues or gross receipts is required to file IRS Form 1023, "Application for Recognition of Exemption Under Section 501(c)(3) of the Internal Revenue Code,"

Likewise, if the booster club wishes to specify contributions as tax-deductible, the most direct path to doing so is through Form 1023, which upon approval will result in the IRS issuing a determination letter that recognizes the booster club's 501(c)(3) nonprofit, tax-exempt status. Booster clubs cannot legally furnish donors with receipts for a charitable tax deductible donation unless they have obtained this type of official determination letter from the IRS.

California nonprofit, tax-exempt status is similar and requires the completion of Form 3500, Exemption Application.

Complete set of instructions and fill-in Forms are available on the IRS and California Franchise Tax Board Web sites at www.irs.gov and <http://ftb.ca.gov>.

Political Campaign Activities

In return for its favored tax-status, a charitable nonprofit promises the federal government that it **will** not engage in “political campaign activity” and if it does, IRS regulations mandate that the charitable nonprofit **will** lose its tax-exempt status.

Solicitations on School Premises

California Education Code 51520, Prohibited Solicitations on School Premises, states the following for K-12 school entities:

During school hours, and within one hour before the time of opening and within one hour after the time of closing of school, pupils of the public school shall not be solicited on school premises by teachers or others to subscribe or contribute to the funds of, to become members of, or to work for, any organization not directly under the control of the school authorities, unless the organization is a nonpartisan, charitable organization organized for charitable purposes by an Act of Congress or under the laws of the state, the purpose of the solicitation is nonpartisan and charitable, and the solicitation has been approved by the county board of education or by the Governing Board of the school district in which the school is located. Nothing in this section shall be construed as prohibiting the solicitation of pupils of the public school on school premises by pupils of that school for any otherwise lawful purpose.

California Education Code section 51521, also for K-12 school entities, discusses solicitations on behalf of a school.

Ultimately, the K-12 school district's superintendent and governing board have complete authority over whether any such activity occurs on school district property. Thus, obtaining written permission for any such activities is of primary importance. Written permission must be obtained through completion of an "Application and Agreement for Use of Facilities." Please see attached OUSD Board Policies BP1321 and AR1321.

Donations for Supplies, Equipment and Transportation

Booster clubs by nature are designed to assist the school and/or ASB, and such assistance may come in the form of donations of supplies, equipment, facilities maintenance, and transportation.

When a booster club wishes to give the school money (cash donation) for supplies or equipment, the booster should donate the funds by writing a check payable to the school. The school secretary will issue a receipt, fill out a Cash Remittance Form, and submit the paperwork along with the check to Accounting Department. The purchase should be carried out through the district's purchasing system by a district-designated individual who is authorized to spend the funds, with the site administrator's approval.

If the donation from the booster is intended for ASB or any of its Clubs, the check is made payable to ASB. The ASB bookkeeper will issue a receipt and will include the donation on the next ASB Minutes of Meeting to be formally accepted. When ASB spends the donation, it is subject to the same procedures as all other ASB expenses.

Gifts of material items (non-cash) to the school or ASB are to be listed on the District

Gift Form and sent to Educational Services.

OUSD Educational Services

Accounting Practices and Internal Controls

Booster clubs are responsible for ensuring that proper internal controls exist for all of their financial activities. In accordance with its bylaws, each booster club should elect a treasurer who is assigned the responsibility for recording, documenting and organizing all financial activities.

As do ASBs that exercise good business procedures and follow attached OUSD Board Policies 3450 and 3452, booster clubs should adhere to sound business practices and maintain an adequate system of controls. These include, but are not limited to, the following:

Financial statements and treasury

- The treasurer or designated officer should prepare monthly financial statements that are presented to the organization along with a copy of the most current bank statement and reconciliation. Financial statements may include cash receipts, cash disbursements, checking account beginning and ending balances, balance sheets, income statements and other relevant items.
- A budget should be developed and approved in the minutes at the beginning of the year to project expected revenues and expenses, and should be revised as needed.
- An auditor who is independent of the treasurer should be appointed and should report directly to the booster club board. The auditor should review all of the financial records, journals, check registers, receipts, invoices, bank statements, and other financial information at least annually.

Cash receipts and bank reconciliation

- Pre-numbered receipt books and supporting backup documentation.
- Preparation of duplicate deposit, cash count and fund-raising forms.
- Bank deposits should be made intact and in a timely manner.
- Someone other than the individual(s) responsible for depositing funds and writing checks should perform bank reconciliations monthly.

Cash disbursements

- Checks should require a minimum of two signatures.
- Preparation of duplicate forms such as purchase orders.
- All expenditures should be approved by the booster board and the approval noted in the board meeting minutes.

Fund-raising activities should be conducted for a specific goal and not simply to raise money for the organization. All fund-raising activities conducted on school premises must adhere to the guidelines established by the board of education and each school site's individual guidelines.

Only organizations that have scheduled fund-raising activities and have obtained prior written approval through the completion of a Use of Facilities form and/or other individual site requirements will be authorized to conduct such activities on district or school premises.

A booster club may donate funds to the ASB or the district for transporting students to events. A Transportation Request Form must be completed in conjunction with the ASB and school site, notating the funding is provided by the booster club, and then sent to Transportation Department. The transportation cost is charged to the school's budget number listed on the Transportation Request (object code 5857). Transportation Department will send a copy of the bill to the school to obtain reimbursement. **The booster club should issue a check payable to the Orange Unified School District.** The school secretary will issue a receipt, fill out a Cash Remittance Form, and submit the paperwork along with the check to Accounting Department.

Paying Stipends, Salaries

A booster club **may not pay any employee** of the school district an additional stipend or salary without prior approval from the district's business and/or personnel office. If the booster club wishes to supplement the school with additional personnel, donate the funds to the District and process the payment through the District's Payroll Department to ensure proper legal requirements are met, such as employment status, mandatory fingerprinting, and employee benefits. Please coordinate with the school's Office Manager to deposit the funds into the proper salary account and to process corresponding Payroll paperwork (ERCA and timecard).

Summer Sports Collections

The Summer Sports Program is usually organized in early May, so the first collections could start coming in at this time. It is important to deposit parent checks in a timely manner, as in times past, they were often left until the season was winding down and many checks were returned for non-sufficient funds. Accounting can refund parents if the student drops or does not end up participating, with the coach's approval. Call the district accounting department whenever a refund is warranted and a decision as to who will issue the refund can be made at that time.

Typically, the collection of sports fees is done by the various Boosters, who then deposit the checks and cash through their bank accounts and generate one check to the District for the coaches' salaries. The forms that accompany the District deposit are designed and distributed by the District Athletics secretary, under the approval of the Assistant Superintendent of Educational Services, and are generally referred to as "the coaches' packet". The packet contains general information regarding the requirements for coaches to be paid for the program. All pay is run through the District Payroll Department, so no Booster Club should be issuing anything other than supply or fee expenses on behalf of the coach/sport. Allowable expenses would be equipment, transportation, uniforms, tournament fees, or misc. supplies. The packet also includes the pay schedules for that year, which are the 31st of the month for certificated personnel and the 1st of the next month for Classified. The due dates are a minimum

of two weeks prior to the next regularly scheduled Board Meeting, so as to be approved and ready for Payroll to enter for the next pay cycles.

The Booster Club issuing the check must include the cash remittance form provided showing how the money is to be deposited. Boosters should convert the funds into one check for District Accounting and attach the already completed forms.

School District Employees and School Site Interaction

A district employee who acts in their personal capacity and on their own personal time is free to participate in a booster club. The employee must ensure that participation in the booster club does not present a conflict of interest with their duties as a school employee. The employee should also make it clear that their participation is in their personal capacity and not in their capacity as a district employee. Additionally, they have no authority to work for the booster club during their district work schedule. A district employee acting in his or her official capacity and during work hours may interact with booster club officials when this is a required part of his or her duties as a district employee.

Facilities Repair Alteration Improvement Request

Boosters are encouraged to assist in the bettering of OUSD facilities to enhance the program's effectiveness and student's experience. The OUSD often times does not have the available resources to take on every program's desire. In the forms portion of this document is a Project Approval Request Form. If your organization has the means and desire to assist in the improvement of our facilities this form must be filled out and approval must be given prior to the start of any project. Projects that are completed without approval are subject to removal.

Quick Tips

- Approved booster club applications are valid for up to one year and requests for renewal shall be presented to the school principal annually. Booster Clubs may be dissolved upon the request of the site administration and all revenues must be placed in the sports ASB account.
- Booster clubs must prepare and adopt a constitution and bylaws that conform to the Board of Education's policies and regulation and the school site's rules and procedures. All booster club members must be made aware that no individual should personally benefit from the activities the organization conducts. This concept should be made a part of the bylaws.
- Booster club officers should be elected according to the structure and process defined in the bylaws.
- Booster clubs are not legal components of the school district. *Each booster club should have its own tax identification number (TIN)*; booster clubs are *not* allowed to use the school district's tax identification number in any way.
- District officials may require booster clubs to be officially recognized as tax-exempt organizations under Internal Revenue code section 501(c)3 and may require them to provide a copy of their determination letter or certificate of non-profit status.
- Booster clubs are responsible for their own tax status, accounting and financial records and must make their own arrangements for an audit if it is needed. The booster club is not audited as part of the district's own annual financial audit. The District has the express right to review and/or audit booster clubs' financial statements to ensure the clubs' financial integrity.
- Any profits from fund-raising activities that are not spent for a booster club's non-profit exempt purpose cannot be returned directly to members or their families.
- No Booster Club or program may impose a mandatory player fee as a precondition for participation as it violates the free schools guarantee of the California Constitution and the prohibition against school fees as contained in Title 5, Section 350 of the California Code of Regulations.
- Booster club funds should never be commingled with Student Body funds.
- Booster Clubs cannot directly pay for employees. Booster paid coaches' salaries must go through the district and must be paid by the payroll department

- Coaches must NOT sign checks for the booster purchases. A coach must NOT be a signer on Booster Club accounts.
- All expenditures should be approved by the booster board and the approval noted in the board meeting minutes.
- Someone other than the individual(s) responsible for depositing funds and writing check should perform bank reconciliations monthly.
- Booster Clubs may donate funds to the district or ASB.
- Booster clubs' ability to use school facilities is regulated by California Education Code 38130-38139, known as the Civic Center Act. Fund-raising and booster run events (such as car washes and tournaments) occurring on District property are directly under the control of school authorities, such as the site administrator, and must be approved by the site administrator prior to any activity. The approval process requires the completion of a Use of Facilities application referred to as "Application and Agreement for Use of Facilities"
- If the booster club is having a fund-raising event using OUSD facilities, and there is an admission charge to attend the event, the booster club will pay the Board of Education per the approved Schedule of Fees. In addition, there may be custodial fees if a custodian is needed to assist for the event, or additional charges for utilities may apply.
- The booster club **must** carry its own liability insurance in an amount equal to or exceeding a minimum determined by the school entity: OUSD requirements are as follows:
- In case the booster club dissolves or terminates, the booster club's constitution should provide for the distribution of any excess funds to another non-profit organization, the ASB or the district.
- Do not attempt any facility improvement project without filling out a Project Approval Request Form (PAR) and receiving OUSD approval.

ORANGE UNIFIED SCHOOL DISTRICT

Guidelines for Student Fees

Article IX, Section 5 of the California Constitution states: "The Legislature shall provide for a system of common schools by which a free school shall be kept up and supported in each district." In *Hartzell v. Connell*, 35 Cal.3d.899, 913 (1984), the Supreme Court of California unambiguously held that this provision prohibits public school from charging mandatory fees for educational activities. *Id.* at 911. The courts concluded that educational activities include both curricular and extracurricular activities. The Court flatly rejected the argument that a fee-waiver policy that allowed for schools to charge fees for educational activities: "Educational opportunities must be provided to all students without regard to their families' ability or willingness to pay fees or request special waivers." *Id.* at 913. Thus, whenever a public school offers a curricular or extracurricular program to students, the California Constitution requires that the school provide all materials, supplies, and equipment-whether they are necessary or supplementary to the program -to students free of charge.

The constitutional prohibition against requiring public school students to pay fees or purchase materials for educational activities is codified in **Education Code 60070**, which prohibits school officials from requiring students to purchase instructional materials, and reinforced by **Title 5, Section 350 of the California Code of Regulations**, which prohibits schools from requiring students to pay any fee, deposit or other charge not specifically authorized by law. Public schools may solicit and accept donations from parents or the broader community, so long as the fundraising program is voluntary and contributing is not a requirement for participating in an educational activity.

The following guidelines reflect the most recent legislation and California Supreme Court interpretations:

AP Exams/PSAT Test:

May charge for the actual cost of these optional exams. If "extra credit" is given, then alternative equivalent "extra credit" assignments must be provided. Cannot charge for AP workbooks needed for class unless copies can be checked out of library. No correlation between exam score and grade in class. Student cannot be disadvantaged for not taking the exam.

Art Projects:

All students must be provided the supplies needed to complete projects; once the projects are fabricated, the students may be charged the cost of the supplies if they wish to keep the item. However, students may not be charged for food items prepared as part of the class. (Education Code § 17551)

ASB/ID Card:

May not charge for cards that are needed for students to participate in athletics or other extra-curricular activities. Make sure all ID cards are free and provided to students with the only difference being discounts. Students may be charged a nominal fee for lost ASB/ID cards. (Education Code § 48904)

Athletic Camps:

Summer camps that are part of the school's athletic program must be free. If an outside group runs a summer camp using District facilities, the outside entity must have a Facilities Use Agreement in place with the District, in accordance with Board Policy.

Attendance at Athletic Events:

May charge for tickets for athletic events and other recreational activities that are attended on a voluntary basis. (*Hartzell v. Connell* (1984) 35 Cal.3d 899, 911fn. 14.)

Banquets/Award Ceremonies (End of Season/End of Year):

Any events that are considered part of the District's program must be free for the students to attend. If meals are to be provided for a fee, students should be able to attend the awards presentation without a meal if desired.

Binders/Notebooks:

Make sure that the purchase of binders/notebooks and other classroom supplies is truly optional, with no grade component for not having them. But can recommend strictly optional materials.

Calculators:

Students may not be required to purchase calculators; if calculators are required as part of the course, they must be provided free of charge.

Cap and Gown:

May charge rental fee because authorization for such charges is contained in Education Code § 38119.

Class Fees/Materials Fees:

Discontinue all fees for items required for participation in the course. This includes a requirement that students purchase novels, workbooks or other supplemental materials.

Club Dues:

Students may be required to pay dues assessed by state or nationally sponsored clubs such as National Honor Society and CSF. However, the dues should not be paid to the District.

Community Service Classes:

May charge (not to exceed actual costs) for community service classes in civic, vocational, literacy, health, homemaking, technical and general education pursuant to Education Code § 51810. Such classes must be open for the admission of adults and such minors as in the judgment of the governing board may profit from the classes.

Damaged Textbooks/District Equipment:

May charge for replacement cost of district books or equipment lost by student or willfully cut, defaced or injured; this assumes the item is returned with damage that is beyond normal wear and tear. (Education Code § 48904)

Dances/Grade Nite:

May charge because participation in dances/Grad Night is optional and the activities are purely recreational. (*Hartzell v. Connell* (1984) 35 Cal.3d 899, 911fn. 14.)

Duplicating records/transcripts:

May charge for actual cost of duplicating public records, student records/transcripts. (Government Code § 6253; Education Code § 49091.14.)

Field Trips:

May charge fees for field trips, excursions and insurance in connection with courses of instruction or school related social, educational, cultural, athletic, or school band activities, as long as no student is prevented from making the field trip or excursion because lack of sufficient funds.

(Education Code § 35330(b); 35331.)

Foreign Language Workbooks/Vocabulary Workbooks:

Students cannot be required to purchase workbooks.

Home to School Transportation:

May charge transportation fee for transportation between home and school and ROP centers, programs or classes, as long as the fee does not exceed the statewide average nonsubsidized cost per pupil and provided there is a waiver provision based on financial need. (Education Code § 39807.5.)

Immunizations:

Students are required to provide proof of required immunizations; the District is not required to cover these costs; students who cannot afford immunizations should be referred to the Orange County Health Care Agency. (Education Code § 48216)

School to Game/Parade Transportation:

May not charge transportation fee to and from school to athletic event/parades.

(*Hartzell v. Connell*, Education Code § 35330(b).)

Library Fines:

May not charge fines for overdue materials as Board Policy does not authorize such fines.

(5 CCR § 16042)

Musical Instruments:

May not require purchase or rental fee for musical instruments; if instruments are taken on excursions to foreign countries, a deposit may be required. (Education Code § 38120)

Parking Fee:

May charge parking fee. (Vehicle Code § 21113.)

PE Clothes:

May charge for standardized physical education attire of a particular color and design (e.g., blue shirt and grey athletic shorts), but the school may not mandate that the attire be purchased from the school and no physical education grade of a student may be impacted based on the failure to wear standardized apparel "arising from circumstances beyond the control" of the student. (Education Code § 49066.)

Locks/Lockers:

May not charge for locks or lockers. Students can be charged for lost locks.

Outdoor Science Camp Programs:

May charge for outdoor science camp programs provided no student is denied opportunity to participate and there is alternative activity for students who stay home. This applies only to those programs that comply with Education Code § 8760 et seq. (Education Code § 35335.)

The District must provide an opportunity for athletes to receive the CIF-required physical examination at no cost. If a student chooses instead to visit his personal health care provider for this purpose, the student will be responsible for the cost.

Spirit Packs:

Spirit Packs may be sold, but a student cannot be required to purchase a Spirit Pack to participate in a sport. Items in the Spirit Packs must not include any required items needed to participate in a sport (e.g., required practice uniforms).

Summer School:

May not charge for summer school classes.

Team Uniforms (Athletic/Band/Choir):

The school must provide a free uniform, including specialized shoes or cleats, to any student who is a member of the school team. This includes practice uniforms if required. Students can be allowed to purchase their own uniforms. The free uniform must be substantially the same as those made available for purchase. However, buying a team uniform cannot be required to participate in the school sport or activity. Exceptions include basic athletic shoes, socks, undergarments and Spirit Pack items. Booster clubs can raise money to donate uniforms.

Other:**Student Fund Raising Activities:**

Students may be required to attend fundraising events. If they are unable to raise funds, the school cannot prevent them from participating in the activity program. It is important to distinguish required fundraising from required attendance at fundraising. Attendance at a fundraising event is the same as attendance at practices, games, rehearsals, or performances which are all an expected aspect of participation. Remember the requirement is to attend a fundraising event, rather than to raise money as a condition of student participation in the school activity or program. Students cannot be required to sell a certain number of candy bars, program ads, rolls of wrapping paper, tickets to a pancake breakfast, etc. as a condition for participation in the school activity.

Booster Clubs:

Booster clubs may fundraise. Parent participation in Booster clubs cannot be required as a condition for student participation in the school activity or program.

Donations:

Donations are voluntary only. Any statement or explanation related to a donation that could lead a reasonable person to believe that the donation is not voluntary is to be avoided. Requests for voluntary donations should not have due dates or minimum contributions. Requests may use language such as the following: "This activity costs the District approximately \$ (fill in the amount) per student; consequently, the District suggests a voluntary donation of this amount. However, any amount is appreciated. No students will be barred from participating in this activity or negatively impacted because of a failure to donate money to the program. If the program is not financially feasible given the timing and overall level of donations received, the program may be cancelled or modified."

The athletic program shall be designed to meet students' interests and abilities and be varied in scope to attract wide participation.

The District's athletic program shall be free from discrimination and discriminatory practices in accordance with state and federal law. The Superintendent or designee shall ensure that equivalent athletic opportunities are provided for both sexes.

Any complaint regarding the District's athletic program shall be filed in accordance with the District's uniform complaint procedures.

All athletic teams shall be supervised by qualified coaches to ensure that student athletes receive appropriate instruction and guidance related to safety, health, sports skills, and sportsmanship. Athletic events shall be officiated by qualified personnel.

The Board encourages business and community support for District athletic programs, subject to applicable District policies and regulations governing advertisements and donations

Nondiscrimination and Equivalent Opportunities in the Athletic Program

The District's athletic program shall be free from discrimination and discriminatory practices prohibited by state and federal law. The Superintendent or designee shall ensure that equivalent athletic opportunities are provided for males and females.

Any complaint regarding the District's athletic program shall be filed in accordance with the District's uniform complaint procedures.

Sportsmanship

The Board values the quality and integrity of the athletic program and the ethical well-being and character development of the student athletes. Student athletes, coaches, parents/guardians, spectators, and others are expected to demonstrate good sportsmanship, ethical conduct, and fair play during all athletic competitions. They shall also abide by the core principles of trustworthiness, respect, responsibility, fairness, caring, and good citizenship and the Codes of Conduct, as adopted by the California Interscholastic Federation (CIF) in its publication "Pursuing Victory with Honor."

Students and staff may be subject to disciplinary action for improper conduct.

California Interscholastic Federation

The Board maintains membership in the CIF and requires that interscholastic athletic activities be conducted in accordance with Board policy, administrative regulation, and CIF bylaws and rules. The Superintendent or designee shall have responsibility for the District's interscholastic athletic program, while the principal or designee at each participating school shall be responsible for the site-level decisions, as appropriate.

The Superintendent or designee shall annually designate an employee from each high school to serve as a representative to the local CIF league. Appointees shall represent the District in performing all duties required by the CIF league. In making this selection, the Board shall consider the employee's understanding of the District's goals for interscholastic and extracurricular activities, knowledge of the athletic programs, awareness of the implications of league decisions for the school and the District, and individual interpersonal communication and leadership skills.

The Superintendent or designee shall ensure that the District representatives to the CIF report regularly to the Board on league, section, and statewide issues, as well as activities and prospective actions related to athletics.

Student Eligibility

The first priority of student athletes shall be a commitment to their education and performing well in the classroom. Eligibility requirements for participation in the District's interscholastic athletic program are the same as those set by the District for participation in extracurricular and co-curricular activities. In addition, the Superintendent or designee shall ensure that students participating in interscholastic athletics governed by the CIF satisfy CIF eligibility requirements. Students shall not be charged a fee to participate in an athletic program.

Health and Safety

The Board desires to give student health and safety the highest consideration in planning and conducting athletic activities. Universal precautions shall be observed when injuries occur.

Students shall have a medical clearance before participating in the interscholastic athletic program. Care shall be taken to ensure that all athletic trainings and competitions are conducted in a manner that will not overtax the physical capabilities of the participants. When appropriate, protective equipment shall be used to prevent or minimize injuries.

Coaches and appropriate District employees shall take every possible precaution to ensure that athletic equipment is kept in safe and serviceable condition. The Superintendent or designee shall ensure that all athletic equipment is cleaned and inspected for safety before the beginning of each school year.

In the event that an injury occurs, the coach or other appropriate District employee shall observe universal precautions and shall remove the student athlete from the activity and/or seek medical treatment for the student as appropriate.

Supervision

All athletic teams shall be supervised by qualified coaches to ensure that student athletes receive appropriate instruction and guidance related to safety, health, training, and preparation for competition. Athletic events shall be officiated by qualified personnel.

Employees and Volunteers who Transport Students

- 1. Requirements**
- 2. Employees/Volunteer-Private Vehicle**
- 3. OUSD Student Voluntary Transportation Agreement**

EMPLOYEES & VOLUNTEERS WHO TRANSPORT STUDENTS USE OF PRIVATE VEHICLES TO TRANSPORT STUDENTS

The District takes every opportunity to guarantee that students are transported in a safe economical fashion. The first choice of transportation is to utilize the Transportation Department. Their focus is safe and their drivers and equipment are all inspected/tested by the Highway Patrol. There are times however, that the busses are not an option so alternatives are available.

In the event that parents or staff volunteer to transport students, the District wants to ensure that the driver and his/her vehicle is safe. This is done by gathering information about the volunteer driver and running it through DMV. It takes two weeks to obtain a report so planning is everything. Nobody under age 21 is permitted to volunteer to transport students. This process is completed annually for each driver.

Before you allow staff or parents to transport students for a school sponsored activity, they must be cleared to drive by the Risk Management Department. There should be no volunteer drivers who have not received clearance before they drive.

In order to verify that they are safe drivers, we need:

- ☐ Copy of their driver's license
- ☐ Copy of current auto insurance policy
(Not the proof of coverage card, the actual policy that states effective dates, who may or may not drive and coverage limits.)
- ☐ The attached form, completed and signed by the Principal.

It is important for the volunteer driver to understand that the auto insurance coverage for their vehicle is the coverage that is primary in the event of an accident. The District coverage through ReLiEF is secondary. This is why proof of coverage limits of \$100,000/\$300,000 is required before authorization to drive is awarded.

Orange Unified School District

Employee/Volunteer Drivers- Use of Private Vehicles

When a District Employee or Volunteer is using a personal automobile for the School District, the liability coverage on the personal automobile is primary. The District's liability program will not cover the personal automobile for comprehensive or collision damages. The California Automobile Insurance Policy covers any additional person the driver may be transporting on an occasional (not commercial) basis. Therefore, there is no need for the district to be named as an additional insured on the employee's or volunteer's auto policy.

The number of passengers (including driver) may not exceed the number of permanently attached seats and seat belts (Ed. Code 39830).

Please submit the following to the Risk Management Department two weeks before employees/volunteers drive students.

- o This form completed and signed by the Principal
- o A copy of valid California Driver's License (attach copy to this form)
- o A copy of their current auto insurance policy. (Must be for the vehicle they plan to transport students)
- o Coverage requirements per accident: (attach proof of insurance to this form)
 - Bodily Injury \$100,000/\$300,000
 - Property Damage \$25,000
 - Medical Payments \$2,000
- o DMV driving record obtained online at www.dmv.ca.gov (attach copy of driving record to this form)

District Rules and Regulations when transporting students:

Only District authorized passengers allowed in your vehicle. (Students must have Non-district Transportation Notice signed by parents).

Follow the safest, most direct route giving consideration to the weather and road conditions.

Avoid unnecessary stops.

All passengers must be in seat wearing a seat belt.

The California Laws of "Rules of the Road" must be followed including speed limits.

Any accidents that occur during transportation should be report to Risk management immediately.

- 2. Board policy**
- 3. Sample Request Form**

Student / Team / Program Travel Guidelines

All trips involving out-of-state or over a 500-mile radius of Orange Unified School District and/or overnight travel shall require the prior approval and be considered a Study Trip. All Study Trips must be approved by the board of education and are covered in board policy. Although boosters can fund trips they cannot sanction trips. All trips must be approved by the school administration and school board. All trips need to be free of charge (donations are accepted). No student in good standing on the team or in the program can be denied access to the trip based on donation or payment. All trips although focused on the event traveling for should have an additional educational component. Examples would include but are not limited to historical sites, museums, team building components, or group bonding exercises.

All trips must be planned well in advance and all approvals must take place prior to the student's departure. It is advised when possible to get all information to your site administrator months prior to the trip. Do not put down large sums of money as a deposit until the trip has been approved.

Instruction**School-Sponsored Trips**

The Board of Education recognizes that school-sponsored trips are an important component of a student's development and supplement and enrich the classroom learning experience. School-sponsored trips may be conducted in connection with the district's course of study or school-related social, educational, cultural, athletic, school band, or other extracurricular or co-curricular activities.

All trips involving out-of-state or over a 500-mile radius of Orange Unified School District and/or overnight travel shall require the prior approval of the Board. In the event a Board meeting is not timely, the Superintendent may approve/disapprove the trip and inform the Board. Other trips may be approved by the Superintendent or designee.

The principal shall establish a process for approving a staff member's request to conduct a school-sponsored trip. When planning trips, staff shall consider student safety, objectives of instruction, the most effective use of instructional time, the distance from school, District and student expense, and transportation and supervision requirements. Principals may exclude from the trip any student whose presence on the trip would pose a safety or disciplinary risk.

No field trip shall be authorized if any student would be excluded from participation because of a lack of sufficient funds. The Superintendent or designee shall coordinate with community groups to supply funds for students in need. (Education Code 35330)

Orange Unified School District

Employee/Volunteer Drivers- Use of Private Vehicles

When a District Employee or Volunteer is using a personal automobile for the School District, the liability coverage on the personal automobile is primary. The District's liability program will not cover the personal automobile for comprehensive or collision damages. The California Automobile Insurance Policy covers any additional person the driver may be transporting on an occasional (not commercial) basis. Therefore, there is no need for the district to be named as an additional insured on the employee's or volunteer's auto policy.

The number of passengers (including driver) may not exceed the number of permanently attached seats and seat belts (Ed. Code 39830).

Please submit the following to the Risk Management Department two weeks before employees/volunteers drive students.

- o This form completed and signed by the Principal
- o A copy of valid California Driver's License (attach copy to this form)
- o A copy of their current auto insurance policy. (Must be for the vehicle they plan to transport students)
- o Coverage requirements per accident: (attach proof of insurance to this form)
 - Bodily Injury \$100,000/\$300,000
 - Property Damage \$25,000
 - Medical Payments \$2,000
- o DMV driving record obtained online at www.dmv.ca.gov (attach copy of driving record to this form)

District Rules and Regulations when transporting students:

Only District authorized passengers allowed in your vehicle. (Students must have Non-district Transportation Notice signed by parents).

PURSUING VICTORY WITH HONOR

The Operating Principles of the CIF

1. The essential elements of character building and ethics in CIF sports are embodied in the concept of sportsmanship and six core principles: trustworthiness, respect, responsibility, fairness, caring and good citizenship. The highest potential of sports is achieved when competition reflects these “six pillars of character.”
2. It’s the duty of School Boards, superintendents, school administrators, parents and school sports leadership - including coaches, athletic administrators, program directors and game officials - to promote sportsmanship and foster good character by teaching, enforcing, advocating and modeling these “six pillars of character.”
3. To promote sportsmanship and foster the development of good character, school sports programs must be conducted in a manner that enhances the academic, emotional, social, physical and ethical development of student-athletes and teaches them positive life skills that will help them become personally successful and socially responsible.
4. Participation in school sports programs is a privilege, not a right. To earn that privilege, student-athletes must abide by the rules and they must conduct themselves, on and off the field, as positive role models who exemplify good character.
5. School Boards, superintendents, school administrators, parents and school sports leadership shall establish standards for participation by adopting and enforcing codes of conduct for coaches, athletes, parents and spectators.
6. All participants in high school sports must consistently demonstrate and demand scrupulous integrity and observe and enforce the spirit as well as the letter of the rules.
7. The importance of character, ethics and sportsmanship should be emphasized in all communications directed to student-athletes and their parents.
8. School Boards, superintendents, school administrators, parents and school sports leadership must ensure that the first priority of their student-athletes is a serious commitment to getting an education and developing the academic skills and character to succeed.
9. School Boards, superintendents, principals, school administrators and everyone involved at any level of governance in the CIF must maintain ultimate responsibility for the quality and integrity of CIF programs. Such individuals must assure that education and character development responsibilities are not compromised to achieve sports performance goals and that the academic, social, emotional, physical and ethical well-being of student-athletes is always placed above desires and pressured to win.
10. All employees of member schools must be directly involved and committed to the academic success of student-athletes and the character-building goals of the school.
11. Everyone involved in competition including parents, spectators, associated student body leaders, and all auxiliary groups have a duty to honor the traditions of the sport and to treat other participants with respect. Coaches have a special responsibility to model respectful behavior and the duty to demand that their student-athletes refrain from disrespectful conduct including verbal abuse of opponents and officials, profane or belligerent trash- talking, taunting and inappropriate celebrations.
12. School Boards, superintendents, and school administrators of CIF member schools must ensure that coaches, whether paid or voluntary, are competent to coach. Training or experience may determine minimal competence. These competencies include basic knowledge of: 1) The character building aspects of sports, including techniques and

methods of teaching and reinforcing the core values comprising sportsmanship and good character. 2) The physical capabilities and limitations of the age group coached as well as the first aid. 3) Coaching principles and the rules and strategies of the sport.

13. Because of the powerful potential of sports as a vehicle for positive personal growth, a broad spectrum of school sports experiences should be made available to all of our diverse communities.

14. To safeguard the health of athletes and the integrity of the sport, school sports program must actively prohibit the use of alcohol, tobacco, drugs and performance enhancing substances, as well as a demand compliance with all laws and regulations, including those related to gambling and the use of drugs.

15. Schools that offer athletic programs must safeguard the integrity of their programs. Commercial relationships should be continually monitored to ensure against inappropriate exploitation of the school's name or reputation. There should be no undue influence of commercial interests. In addition, sports programs must be prudent, avoiding undue dependency on particular companies or sponsors. 16. The profession of coaching is a profession of teaching. In addition to teaching the mental and physical dimensions of their sport, coaches, through words and example, must also strive to build the character of their athletes by teaching them to be trustworthy, respectful, responsible, fair, caring and good citizens.

CIF Code of Ethics: Athletes

1. Place academic achievement as the highest priority
2. Show respect for teammates, opponents, officials, and coaches
3. Respect the integrity and judgement of game officials
4. Exhibit fair play, sportsmanship, and proper conduct on and off the field
5. Maintain a high level of safety awareness
6. Refrain from the use of profanity, vulgarity and other offensive language and gestures
7. Adhere to the established rules and standards of the game to be played
8. Respect all equipment and use it safely and appropriately
9. Refrain from the use of alcohol, tobacco, illegal non-prescriptive drugs, anabolic steroids or any substance to increase physical development or performance that is not approved by the USDA, Surgeon General or the American Medical Association
10. Know and follow all state, section and school athletic rules and regulations as they pertain to eligibility and sports participation
11. Win with character, lose with dignity
