## Measure S Cash Flow Projection June 2017

## Four Questions

1. What do we need?
2. When do we need it?
3. What do we have available?
4. When should we sell bonds?

## Section 2

## Updated Measure S Finance Plan

## Considerations for Timing of Debt Issuance

Need for funds: Once GO Bonds are issued, the taxpayers begin paying interest
$\square$ District has been prudent with its own funds and has the money to start the planning process thus saving the taxpayers interest

For a $\$ 100,000,000$ general obligation bond issue, the District would pay approximately $\$ 4,637,875$ in annual interest payments
$\square$ Interest Rate Environment
$\square$ Assessed Value
Internal Revenue Service (IRS) Spend-down

## Measure S Bonding Schedule (Base Case)

$\square$ The School District could fund $\$ 120$ million in mid-2018 and issue the remaining $\$ 168$ million in Measure S authorization in late 2021 assuming Current Interest Bonds only

[^1]${ }^{(2)}$ Series 2018 assumes 5\% coupons and MMD 10-year average 'AA' yields per maturity. Series 2021 assumes 5.50\% coupons and MMD 10-year average 'AA' yields.
${ }^{(3)}$ Principal and interest are paid semiannually and fully repaid by 2048.

## Measure S Bonding Schedule (Scenario 2)

$\square$ The School District could fund $\$ 100$ million in mid-2018 and issue the remaining $\$ 188$ million in Measure S authorization in late 2020 assuming Current Interest Bonds only

[^3]
## Measure S Bonding Schedule (Scenario 3)

$\square$ The School District could fund $\$ 150$ million in mid-2017 and issue the remaining $\$ 138$ million in Measure S authorization in late 2021 assuming Current Interest Bonds only

[^4]${ }^{(2)}$ Series 2018 assumes $5 \%$ coupons and MMD 10-year average 'AA' yields per maturity. Series 2022 assumes $5.50 \%$ coupons and MMD 10 -year average 'AA' yields.
${ }^{(3)}$ Principal and interest are paid semiannually and fully repaid by 2048.

## Benefit of 2018 Issuance vs. 2017 Issuance

By delaying the bond sale by one year, the School District is able to issue the same amount of bonds, but with a higher Assessed Valuation ("AV")
A A higher AV allows for more principal to be paid off sooner, saving up to $\$ 1.8$ million in total interest costs for the District's taxpayers
