

## PARKING LOT – DROP OFF AND PICK UP

Each day, over 800 students come and go from La Veta, and many of them enter and exit from the parking lot. Although we are often rushing from one place to the next, **it is essential that we use caution and remember that we must all work to ensure that our children come and leave school safely.**

### **Safety rules for our parking lot include:**

- There are two lanes for drop off and pick up - the curb lane closest to the school and the right side lane in the center of the parking lot (see diagram). **Students should only exit and enter cars from these lanes.**
- Parents and students walking through the parking lot must use the designated crosswalk.
- **Cars are not to be left unattended in the drop off lanes.** If you need to leave your car, please pull into a marked parking space or park your car on the street.
- The left-side lanes are for passing through only. Students are not permitted to enter or exit cars from these lanes (see diagram).
- Please pull forward in the drop off/ pick up lanes to permit access to other cars.
- Traffic from the first exit should only turn right during school hours.

### **ALTERNATIVE PICK-UP AREA**

The back gate located on Larkstone Street will be opened for all students, Grades 1-6, at the end of the school day. There will be a staff member supervising the area to ensure the safety of all students waiting for a ride.

**BUS TRANSPORTATION**

Bus transportation is provided for a fee for students who live in one of our designated bussing areas. Contact the district's transportation office at (714) 538-8295 for an application or more information. If your child will be riding the bus, please review the rules for bus conduct with them.
