

Imperial Digital Citizenship

At Imperial Elementary School, we use a variety of technology each and every day to enrich our learning. It is imperative that our Eagles know how to navigate safely through today's rapidly changing technologically advanced society. Issues such as Internet safety, cyberbullying, giving out private information and what apps are best for kids are all concerns we face each day. Imperial's staff wants to involve families in our quest to keep kids safe.

Common Sense Media has a wealth of information for families. We would recommend you have courageous conversations with your students and to encourage them to use the skills they have to be tech safe, as well as tech savvy!
