

# VIDEO PRODUCTION

**ORANGE HIGH SCHOOL**

## DESCRIPTION:

TV Broadcasting & Digital Video Production focuses on career exploration in the fields of videography and production. In this course, you will learn the fundamental film theories, audio engineering, techniques to produce, edit images, film videos, instruction on lighting, camera operation, and related computer applications for editing such as Final Cut Pro X and Adobe Premier. The Video Production course will provide students with a basic understanding of the technology and create desired effects for target audiences. Upon completion, students should be able to demonstrate a variety of production skills and techniques related to producing a variety of video formats. Some examples would be Orange High School morning news, making short films, student feature stories, instructional videos, Public Service PSA Commercials, Music Video, and so much more. If you want to learn story design skills, scriptwriting, time management, video editing, studio production, working in a team setting, and having fun learning, then this class is for you.

## TEACHERS:

# COURSE DESCRIPTIONS

## **ART OF TV AND VIDEO PRODUCTION (02):**

Students will develop and apply knowledge of artistic principles and aesthetics and acquire technical skills in producing video from concept to finished product. The curriculum leads students to perceive video/film as both an art form and a communication tool reflecting and influencing historical and contemporary culture. Students will produce original work including short video projects that demonstrate understanding of the fundamental aspects of the production process.

## **ART OF TV AND VIDEO PRODUCTION ADVANCED (03):**

This course provides instruction and training for students interested in careers in the video, broadcast, and film production industries. Students experience both the creative and technical aspects of film-making and video production in conjunction with learning about historical and contemporary traditions and conventions. Students will explore different aspects of the media and entertainment industry as it relates to potential career selections. Students achieving competency in this course will be prepared to enter a film or broadcast journalism course of study at the college level or be prepared for entry-level employment in those fields.
