

The following guidance comes from [cdc.gov/coronavirus](https://www.cdc.gov/coronavirus)

Checklist: Planning for In-Person Classes

Actions to take and points to consider

- Check in with your child each morning for signs of illness. If your child has a temperature of 100.4 degrees or higher, they should not go to school.
- Make sure your child does not have a sore throat or other signs of illness, like a cough, diarrhea, severe headache, vomiting, or body aches.
- If your child has had close contact to a COVID-19 case, they should not go to school. Follow guidance on what to do when someone has known exposure.

- Practice with your child putting on and taking off masks without touching the part that covers the face.

- Explain the importance of wearing a mask and how it protects other people from getting sick.

Planning for Transportation

- Plan for your child to wear a mask on the bus and talk to your child about the importance of following bus rules and any spaced seating rules.

- Wear a mask that covers your nose and mouth to help protect others in case you're infected with COVID-19 but don't have symptoms
- Wear a mask in public settings when around people who don't live in your household, especially when it may be difficult for you to stay six feet apart
- Wear a mask correctly for maximum protection

- Don't put the mask around your neck or up on your forehead
- Don't touch the mask, and, if you do, wash your hands or use hand sanitizer to disinfect
